

Lead Base Paint Training

LEAD HAZARD CONTROL PROGRAM OF THE CITY OF ERIE

The City of Erie, pursuant to the Commonwealth of Pennsylvania Act #44 of 1995 is authorized to provide Lead Abatement Training Courses.

As of January 08, 2008 the Commonwealth of Pennsylvania as approved the following courses:

Lead base paint Worker Initial	- 3 days-
Lead base paint Supervisor Initial	- 4 days-
Lead base paint Project Designer Initial	- 1 day -
Lead base paint Inspector Initial	- 3 day -
Lead base paint Risk Assessor Initial	- 2 day -
Lead base paint Worker Refresher	- 1 day -
Lead base paint Supervisor Refresher	- 1 day -
Lead base paint Designer Refresher	- 1 day -
Lead base paint Inspector Refresher	- 1 day -
Lead base paint Risk Assessor Refresher	- 1 day -

- I. Every Lead based paint Contractor must have a lead base paint Supervisor on site. All workers must be certified as Lead base paint workers. This includes General Contractors, Electricians, Plumbers and HVAC contractors.
- II. A Construction professional who would like to design, write specifications on lead related projects must take the lead supervisor and lead designer course.
- III. A Construction professional who would like to become a Risk Assessor must be certified as lead base paint inspector and lead base paint risk assessor.
- IV. We recommend that all personnel involved in housing remodeling, renovations, be certified as a lead worker or take a class on lead safe work practices.

For more information call Jorge Alvear at **814-870-1262**
